Subject: Cost Avoidance on Replacement of Aqueous Film Forming Foam (AFFF) on FOT T201 and T208 with Linear Heat Detection (LHD) System

Chisom,
Please support closure of cost avoidance of F\$2.55mln on replacement of AFFF on T201/208 with Linear Heat Detection (LHD) system.

Cost changed from AFFF (F\$2.8mln) to LHD (~F\$250k). Installation and commissioning of LHD on T201 has been completed and system confirmed working well. Find attached the completion certificate issued to the contractor as evidence.

Regards,
Shina.
