Supported.

Savings is largely from the avoided/descoped work scope from execution optimization and early completion ahead of schedule.

Thanks.

**Subject:** FW: CLP Cost Savings Alignment with Finance on FiT-4

Please kindly support the cost saving of F\$154,000.00 (CAPEX) for FCLP installation works.

I have added the additional narrative and this is **SE number 1002289915**.

Attached is MCC you requested for so we can progress to L3 in Fit-4

Thanks
