Subject: Handover of Land of Disused ROW

Cle,

Good day. My team has a mandate from CCH to reduce OPEX arising from rents for leased land used in SPDC operations. We've looked through our lease register and drawn up the following ROW which are disused. These ROWs have a N122million annual rent obligation

Presently, we are unable to hand back the land to the original owners as we don't know whether the pipelines in the ROWs have been decommissioned and the land certified by the DPR for other uses.

We'd like to have a conversation with you and how we can save N122million annually from handing back the land of these ROWs

SN	ROW	PIPELINE	PIPELINE
1	Afam-Bomu Pipeline	12" EGBERU M/F TO BOMU TRUNK LINE	DECOMMISSIONED
