The Journey so far...

- Rumuahia project scoping and planning- Week 49 (Dec,2018).
- Project commencement- Week 04 (Jan, 2019).
 - ❖ Duration of 4weeks
- Project Team:
 - ❖ Kenneth Onwumere – Lead (Spares Hot Desk Team)
 - ❖ Onyeka Nwosu (Spares Hot Desk Team)
 - ❖ Henry Ogbu (Spares Hot Desk Team)
 - ❖ James Amadi (Rumuahia Asset Team)
 - ❖ Rasaq Adedokun (Rumuahia Asset Team)
 - ❖ Ruth Micheal (Rumuahia Asset Team)

ACTIVITY PLAN

	SQUIRREL STORES INVENTORIZATION ACTIVITY PLAN			Activity Status	Detailed Activity Targets in weeks (Ash Colour = Not Yet Started)												
					Jan					Feb				Mar			
					1	2	3	4	5	6	7	8	9	10	11	12	13
1	Land Asset Hub	Rumuahia	Mechanical Caravan(Engines)														
			Mechanical Caravan(Pumps)														
			Electrical Caravan														
			Time-Off														
			Instrument Caravan														
			Consumable Store														
			Tool Store														
2	Legends																
	Not yet Started																
	Ongoing																
	Completed																
	Time-Off																

Highlights:

- ❖ Project status now at 100% completed.
- ❖ Carried out **5-S** warehouse methodology system across all stores.
- ❖ Re-activated Rumuahia PU Consumable Store to MIE Standard.
- ❖ **789Nos** of materials line items validated.
- ❖ **769Nos** material line item validated for Keep.
- ❖ **20Nos** of materials line item proposed for Write-Off.
- ❖ **448Nos** line item assigned SAP Material Numbers YTD.
- ❖ Completed desktop analysis for inventorized materials.
- ❖ Inventorized material ready for upload to HDMMS.

At End of Project:

- ❖ Validated materials valued at about **\$1.2M**
 - ✓ Value of Material to Keep: **\$1.1M**
 - ✓ Value of materials proposed for write-off: **\$51K**
- ❖ Validated materials shall be uploaded to HDMMS Platform for greater visibility across SCiN.
- ❖ Add-on materials should be communicated to the Hot Desk Team for prompt database update.
- ❖ Sustain 5-S warehouse methodology system for easy access to materials

Recommendations

- ❖ Routine check for expired, damaged and obsolete materials.
- ❖ Each discipline to appoint a store focal point or custodian for effective management and accountability.
- ❖ Minor repair to be carried out at **ALL** store floor(Caravans), to close out openings and prevent rodents from gaining access.
- ❖ Material withdrawal **MUST** be managed using the HDMMS Platform for effective tracking and accountability.
