Hi Anietie,

A few comments from our review.

- Kindly confirm the basis of the company estimates in mail below.
- Please expunge the entries for Total pending when the transaction is completed.
- Also update the table to reflect the savings from the OCTG procured from ENI.

Regards,
'Voke

Subject: RE: OPTS Inventory Sharing

Dear Uche,

Find attached the cost savings achieved in OPTS Inventory sharing for first half of 2023. Savings for H1'23, stands at \$1.9mln.

Note that savings are calculated as detailed below:

1. For sale transactions, savings is based on the yearly storage/logistics and handling cost estimated at 25% of cost of item (Confirmed from Warehouse team).
2. For buy transactions, savings is derived by benchmarking with the Company estimate. (Savings does not account for quick delivery time, as items are available in-country already).

Hope this clarifies. I am available via mobile, if your require additional clarifications.

Kind Regards,
Anietie
